

# PERSONAL OFF-GRID CHARGING

## \$349

**Convenient charging for all your outdoor spaces!**

The Backyarder LV1 is a pre-assembled solar kit that provides power for items up to 36 watts. The USB outlets and battery meter are all easily accessible from the front of the component box. It can charge devices such as LED lights, smartphones and tablets.

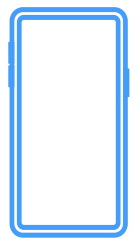

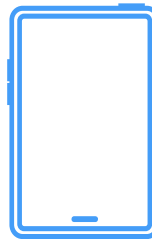

### POWERING CAPABILITIES

Devices up to 36 watts

- LED Lighting (5W): Provides up to 28+ hours of continuous lighting
- Cell Phone Charger (5W): Charges for up to 28+ hours
- USB Fan (5W): Runs for about 28+ hours
- Small Radio (10W): Operates for about 14+ hours

Actual runtimes will vary based on battery discharge rates and efficiency losses.

### IDEAL APPLICATIONS

### BACKYARDER LV1 SOLAR KIT LIMITED WARRANTY

- Battery: 2 Years
- Charge Controller: 1 Year
- Solar Panel Output: 25 Years
